

Two-n-One Hybrid Mat

Meet our most versatile and customizable scrape-and-clean entry system.

Two-n-One hybrid matting system: the smart and versatile combination of Frontrunner SB – a heel-and-wheel friendly grid entry system – and your choice of durable all-weather walk-off carpet*, together in a single mat.

The distinctive look of Frontrunner SB's serrated grid scrapes and captures dirt and debris, while the walk-off carpet* wipes away what's left, including excess moisture. Made using Portico Systems' industry-leading assembly process, Two-n-One Mat is built to withstand medium to high traffic.

Choose from a wide selection of shapes, sizes and colors (single tone or custom logo designs available), or as a semi-permanent wall-to-wall installation. Two-n-One's nearly limitless versatility is one of many ways Portico Systems makes customizing mats easier than ever.

Ex. Two-n-One Hybrid Mat with Portico logo

Created using Frontrunner SB Black Vinyl Grid and Portico Nop carpet (logo portion). Finished with black medium profile edging.
